FISCAL ANALYSIS

ASSUMPTION

Officials from the **Department of Social Services (DSS) - Children's Division (CD)** state because the proposal increases the age requirement for relinquishing a child in this manner from up to 5 days to 45 days, there is a possibility of an increased number of infants entering the CD's custody under these circumstances. However, the number of children who would not otherwise come into care through other means, such as a child abuse or neglect report, is not expected to be significant.

This legislation would require minor revisions to Child Welfare Policy and revisions to the "Safe Place for Newborns" brochure; however, this cost would be minimal and could be absorbed by the Division.

The proposal also removes the affirmative defense provision which was valid up to one year. This makes the whole process cleaner. This proposal also allows either parent 30 days to reestablish parental rights and provides protection in that it prohibits officials and agency personnel from coercing the parent to reveal identifying information.

Officials from the **DSS - Division of Legal Services (DLS)** state the proposal does not dramatically alter the current law and, therefore, would have no fiscal impact on the DLS.

Officials from the **Office of State Courts Administrator**, the **Department of Health and Senior Services**, the **Department of Public Safety - Missouri State Highway Patrol** and the **Barton County Memorial Hospital** each assume the proposal would not fiscally impact their respective agencies.
